to the Treatment of Cardiovascular Disease*

Visit [www.isacb.org](http://www.isacb.org) or email [steven.schmidt@isacb.org](mailto:steven.schmidt@isacb.org) for more information.

The ISACB is currently accepting on-line, electronic submissions of abstracts for the 11th Biennial Meeting, 17-20 September, 2008 in Cité Mondiale Centre de Congrès Bordeaux, France.

With the assistance of local arrangements chair, Laurence Bordenave, of The University of Bordeaux, ISACB has selected the Cite Mondiale, <http://www.citemondiale.com>, as the venue for the 11th Biennial Meeting. This modern conference facility is just a short tram ride from the center of Old Bordeaux and features a state of the art amphitheater where the scientific sessions will be held, an adjacent salon for posters and exhibits and a 7th floor dining room and terrace with panoramic views of Bordeaux and the River Garonne. This venue will be the perfect setting for the collegial exchange of ideas that has been the hallmark of past ISACB meetings.

For more information about the 11th Biennial Meeting, please visit [http://www.isacb.org/biennial\\_meeting.asp](http://www.isacb.org/biennial_meeting.asp).

For detailed information regarding abstract submission guidelines or to create an account to submit an abstract please visit [http://www.isacb.org/submit\\_abstract.asp](http://www.isacb.org/submit_abstract.asp).
